Describe why you wish to serve on this board, committee, or commission, how you have engaged with the City previously (i.e., attending meetings and events, etc.), and why you believe you are qualified for the position. Please be specific.

For the past few years, I have been more involved from a distance mostly with the temecula school district by attending meetings and engaging the school board members in dialogue as it relates to Diversity and Inclusion within our school district. the challenges our children face in the temecula school district begins with the community at large. The amount of disinformation regarding equity, diversity and inclusion is astounding; many in our community really do not understand that equity for all benefits everyone. I know there are others that will apply and have more experience in the DEI community; However I believe I am uniquely qualified. I have provided support and resources for many residents that are considered "invisible" the low income families, homeless, elderly, the disabled and the many immigrants that make up our city. I believe that in order for our city to thrive, we need to ensure that all residents (and visitors) are welcomed.
