

**STAFF REPORT – PLANNING  
CITY OF TEMECULA  
PLANNING COMMISSION**

**DATE OF MEETING:** July 16, 2025

**TO:** Planning Commission Chairperson and members of the Planning Commission

**FROM:** Matt Peters, Director of Community Development

**PREPARED BY:** Scott Cooper, Case Planner

**PROJECT SUMMARY:** Planning Application No. PA24-0508, a Home Product Review (Development Plan) for Planning Area 10 of the Roripaugh Ranch Specific Plan to allow for two (2) unique detached single-family plans with two (2) architectural styles consisting of 13 lots.

**RECOMMENDATION:** Adopt a Resolution approving the project subject to Conditions of Approval

**CEQA:** No further environmental review required  
Section 15162, Subsequent EIRs and Negative Declarations

**PROJECT DATA SUMMARY**

**Name of Applicant:** Richmond American Homes

**General Plan Designation:** Specific Plan Implementation (SPI)

**Zoning Designation:** Roripaugh Ranch Specific Plan (SP-11)

**Existing Conditions/  
Land Use:**

Site: Vacant Land / Specific Plan Implementation (SPI)

North: Open Space, Vacant Land / Specific Plan Implementation (SPI)

South: Murrieta Hot Springs Road, Vacant Land / Specific Plan Implementation (SPI)

East: Open Space, Vacant Land / Specific Plan Implementation (SPI)

West: Open Space, Vacant Land / Open Space (OS)

**AFFORDABLE/WORKFORCE HOUSING**

Located in Housing Element Vacant Sites Inventory? ☐ Yes ☒ No

Located in Affordable Housing Overlay Zone (AHOZ)? ☐ Yes ☒ No

## **BACKGROUND SUMMARY**

On November 26, 2002, the City of Temecula City Council approved Tentative Tract Map 29353 which allowed for the subdivision of existing property into what became known as Roripaugh Ranch. The approval on the proposed property for this tentative tract map expired.

On January 23, 2018, the City of Temecula City Council approved a General Plan Amendment to amend the underlying General Plan Land Use designations of Phase II of the Roripaugh Ranch Specific Plan to a Specific Plan Implementation (SPI) Land Use. At this hearing, the City Council also approved a Specific Plan Amendment to the Roripaugh Ranch Specific Plan including updating the development standards and facilities within the sports park, providing a greater variety of residential lot sizes, allowing for age-qualified housing, adding design guidelines and architectural styles for a multi-family development option, revising the circulation and aesthetics of Loop Road, improving trails and trail connections, updating the landscape architecture master plan, and revising the development of Long Valley Wash as an amenity for the community while not increasing the number of dwelling units previously approved within the Specific Plan.

On October 21, 2020, the City of Temecula Planning Commission approved Tentative Tract Map No. 37925 which is Planning Area 10.

On December 30, 2024, Richmond American Homes submitted Planning Application PA24-0508, Home Product Review for Planning Area 10 of the Roripaugh Ranch Specific Plan to allow for two (2) unique detached single-family plans with two (2) architectural styles consisting of 13 lots.

Staff has worked with the applicant to ensure that all concerns have been addressed, and the applicant concurs with the recommended Conditions of Approval.

## **ANALYSIS**

The proposed project involves the construction of single-family homes ranging in size from 3,762 square feet to 4,650 square feet on 13 lots of Planning Area 10 within the Roripaugh Ranch Specific Plan. The proposed architecture, plotting, landscaping, and walls and fences were reviewed for conformance with the development standards and design guidelines of the Specific Plan.

### **Architecture**

The project proposes two (2) floor plans and two (2) architectural styles. The architectural styles include Spanish and California Ranch, which are consistent with the Residential Architectural Standards specified in the Roripaugh Ranch Specific Plan Design Guidelines.

Staff believes that, with the attached Conditions of Approval, the project meets the intent of the Roripaugh Ranch Specific Plan. The proposed elevations achieve a quality appearance and provide diversity along the streetscape and within the internal residential area.

The applicant has provided specific details which are unique to each proposed architectural style and elevation. The two proposed styles are distinct through the use of materials and with

articulation provided on elevations of the homes. The architectural elements and materials that work to achieve this character are defined below for each specific style:

- Spanish: decorative tile, “s” shape roof tile, arch ways, clay pipes, 4:12 roof pitch
- California Ranch: concrete flat roof tiles, stone base, a blend of stucco and siding, multi paned windows

#### Product Placement Plan

The proposed product placement conforms to the requirements of the Roripaugh Ranch Specific Plan Valley Neighborhood Design Guidelines. A varied and visually interesting street scene has been achieved through creative product placement and alternately reversed floor plans throughout the development. The units have been plotted to avoid repetition in plan, building setbacks, and elevation type to meet the intent of the design guidelines. This Specific Plan requires “Architecture Forward” concepts in all of the homes in this planning area. Architecture forward is defined as advancing the architecture of the living space forward on the lot while concurrently, the garage is recessed a minimum of eight (8) feet behind the living space for this planning area. This ensures that the architecture of the garage doors will not dominate the street scene as the garages are located over 20’ from the street.

#### **LEGAL NOTICING REQUIREMENTS**

The notice of the public hearing was published in the Press Enterprise on July 3, 2025 and mailed to the property owners within 600-foot radius.

#### **ENVIRONMENTAL DETERMINATION**

The Roripaugh Ranch Specific Plan was formally adopted in 2002. An Environmental Impact Report (EIR) was prepared and certified on December 17, 2002, as part of this effort. Since that time, five EIR Addendums have been prepared for the project area with the most recent adopted on January 14, 2020. The proposed project has been determined to be consistent with the previously adopted Roripaugh Ranch EIR Addendum and is exempt from further environmental review (Section 15162, Subsequent EIRs and Negative Declarations). Staff has reviewed the EIR, the First Addendum to the EIR adopted on April 23, 2013, the Second Addendum to the EIR adopted on March 22, 2016, the Third Addendum to the EIR adopted on January 23, 2018, the Fourth Addendum to the EIR adopted on November 6, 2019, the Fifth Addendum to the EIR adopted on January 14, 2020 (collectively, “Addenda”), and has determined that the proposed project is consistent with the EIR and Addenda as the proposed project merely implements the development that was already contemplated and analyzed by the EIR and Addenda. The EIR and Addenda analyzed the impacts of the construction of single-family homes on 13 lots of Planning Area 10. As such, the proposed project does not require the preparation of a subsequent Environmental Impact Report or Mitigated Negative Declaration as none of the conditions described in Section 15162 of the CEQA Guidelines (14 Cal. Code Regs. 15162) exist. Additionally, the proposed project does not require the preparation of an addendum to the EIR as there are no changes or additions to the proposed project from what was analyzed by the EIR and the Addenda. Therefore, no further environmental review is required as all environmental impacts of the proposed project were analyzed, disclosed, and mitigated as set forth in the EIR and

Addenda. Moreover, the mitigation measures imposed as part of the EIR and Addenda remain valid and applicable to the proposed project.

## **FINDINGS**

### Development Plan (Code Section 17.05.010.F)

The proposed use is in conformance with the General Plan for Temecula and with all applicable requirements of State Law and other Ordinances of the City.

*The proposed single-family homes are permitted in the land use designation standards contained in the Roripaugh Ranch Specific Plan and the City's Development Code. The project is also consistent with General Plan land use of Specific Plan Implementation. The site is properly planned and zoned and, as conditioned, is physically suitable for the type and density of residential development proposed. The project, as conditioned, is also consistent with other applicable requirements of State law and local ordinances, including the California Environmental Quality Act (CEQA), the City Wide Design Guidelines, and fire and building codes.*

The overall development of the land is designed for the protection of the public health, safety, and general welfare.

*The overall design of the single-family homes, including the site, building, parking, circulation and other associated site improvements, is consistent with, and intended to protect the health and safety of those working in and around the site. The project has been reviewed for and, as conditioned, has been found to be consistent with all applicable policies, guidelines, standards and regulations intended to ensure that the development will be constructed and function in a manner consistent with the protection of the public health, safety, and welfare. Nothing proposed in the Home Product Review is anticipated to have an adverse impact to the public health, safety and general welfare.*
