

**CITY OF TEMECULA  
AGENDA REPORT**

**TO:** City Manager/City Council

**FROM:** John Crater, Fire Chief

**DATE:** October 22, 2024

**SUBJECT:** Adopt the City of Temecula Disaster Debris Management Plan

---

**PREPARED BY:** Mikel Alford, Emergency Manager

**RECOMMENDATION:** That the City Council adopt this resolution entitled:

RESOLUTION NO.

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF  
TEMECULA ADOPTING THE CITY OF TEMECULA  
DISASTER DEBRIS MANAGEMENT PLAN

**BACKGROUND:** For the protection of the public health, safety, and welfare of residents and visitors, the City of Temecula recognizes the responsibility to be prepared for a debris-generating event. Disasters can produce substantial volumes of debris, creating hazardous conditions that endanger the public and disrupt the essential daily lifestyle and economy of the community.

It is imperative that the City of Temecula is prepared to provide an early, safe, and quick response to restoring environmentally safe and economically viable conditions to the disaster-affected area(s). The Disaster Debris Management Plan (DDMP) addresses how response to a debris-generating incident will be coordinated at a regional and local level. The DDMP does not address routine debris incidents that local agencies can manage; the operational concepts reflected in this Plan focus on potential large-scale disasters that can generate significant volumes of debris requiring an unusual or extraordinary response.

The City of Temecula has prepared this DDMP to ensure the most effective allocation of resources for the protection of people and property in time of an emergency with the primary objective of this plan being the rapid removal of debris and returning the community back to a pre-disaster state. The City of Temecula is currently the only City in Riverside County with its own DDMP and standby contract to support the rapid removal of debris from a catastrophic event.

**FISCAL IMPACT:** None
