

**CITY OF TEMECULA
AGENDA REPORT**

TO: City Manager/City Council

FROM: Patrick Thomas, Director of Public Works

DATE: June 11, 2024

SUBJECT: Adopt Resolution Declaring an Emergency Condition for the Repair and Replacement of Storm Drain Along Ynez Road, and Declaring that Public Interest and Necessity Requires Work to be Performed Without Competitive Bidding Pursuant to Public Contract Code Sections 1102, 20168 and 22050

PREPARED BY: Julie Tarrant, Principal Management Analyst
Rebecca Kiser, Senior Office Specialist

RECOMMENDATION: That the City Council adopt by four votes a resolution entitled:

RESOLUTION NO.

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF TEMECULA, CALIFORNIA, DECLARING AN EMERGENCY CONDITION FOR THE REPAIR AND REPLACEMENT OF STORM DRAIN ALONG YNEZ ROAD AND DECLARING THAT THE PUBLIC INTEREST AND NECESSITY REQUIRES CERTAIN WORK TO BE PERFORMED WITHOUT COMPETITIVE BIDDING PURSUANT TO PUBLIC CONTRACT CODE SECTIONS 1102, 20168 AND 22050

BACKGROUND: On May 15, 2024, it was identified that emergency work was needed to repair a damaged and collapsed storm drain line along Ynez Road, between Calle Halcon and Pauba Road. The repairs were immediately necessary to avoid additional damage to the surrounding drainage system and roadway, and to restore use of the road for the traveling public.

Due to the urgency of this matter, the Department of Public Works - Maintenance Division responded immediately to install the necessary traffic control measures to ensure the safety of the public, and to assess the damages to determine the repairs needed and contacted our on-call service contractors to facilitate repairs as quickly as possible. The Public Works Maintenance Manager requested informal quotes from Miko Mountain Lion, Inc., and NPG, Inc., who currently provide on-call, and emergency call-out services to include excavation, backfill, and grading, and paving maintenance services citywide. Miko Mountain Lion, Inc., and NPG, Inc., were requested to provide emergency call-out services, and were on-site to begin work the morning of May 16, 2024. Although the damage was extensive, all necessary excavation, shoring, repair, and replacement of storm drain line was completed on May 24, 2024. At this time, we do not have actual costs, due to

pending receipt of materials and labor invoices from various suppliers and contractors, but the total estimated cost of repairs is anticipated not to exceed \$120,000.

In accordance with Public Contract Code Sections 1102, 20168 and 22050, it is requested City Council adopt a resolution declaring an emergency condition and declaring that the public interest and necessity requires work to be performed without competitive bidding.

FISCAL IMPACT: Adequate funds are available in the Annual Operating Budget (AOB) FY 2023-24.
