

**CITY OF TEMECULA
AGENDA REPORT**

TO: City Manager/City Council

FROM: Patrick Thomas, Director of Public Works/City Engineer

DATE: March 14, 2023

SUBJECT: Adopt Resolution Finding that an Emergency Condition Continues to Exist within the Meaning of Public Contract Code Sections 20168 and 22050 and Appropriate Funding for Emergency Repairs

PREPARED BY: Julie Tarrant, Principal Management Analyst
Tammy Petricka, Administrative Assistant

RECOMMENDATION: That the City Council adopt a resolution entitled:

RESOLUTION NO.

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF TEMECULA, CALIFORNIA, DETERMINING THAT THERE IS A NEED TO CONTINUE THE ACTIONS AUTHORIZED BY RESOLUTION NO. 2023-17 DECLARING AN EMERGENCY CONDITION AND DECLARING THAT THE PUBLIC INTEREST AND NECESSITY REQUIRES CERTAIN WORK TO BE PERFORMED WITHOUT COMPETITIVE BIDDING PURSUANT TO PUBLIC CONTRACT CODE SECTIONS 20168 AND 22050

RECOMMENDATION: That the City Council appropriate \$200,000 from the General Fund balance to provide funding for emergency repairs along Margarita Road, and Santiago Road, as a result of the extraordinary rain events of February 25 and 26, 2023.

BACKGROUND: On February 28, 2023, City Council approved the adoption of Resolution No. 2023-17 Declaring an Emergency Condition and Declaring that Public Interest and Necessary Requires Certain Work to be Performed Without Competitive Bidding Pursuant to Public Contract Code Sections 20168 and 22050.

The Public Works Department identified two locations where storm drains have been damaged and/or collapsed and are in need of immediate repair, located at 29600 Margarita Road (Margarita Road and Courtney Place) and Santiago Road (near Santiago Road and Via Valencia). The repairs

are necessary to avoid additional damage to the storm drains, to maintain the roadway `` and restore access to the roads for the travelling public.

The Public Works Maintenance Division responded immediately to each site, to install the necessary traffic control measures to ensure the safety of the public, and to assess the damages to determine the repairs needed and contacted our on-call service contractors to facilitate repairs as quickly as possible. The Public Works Department Director requested an informal quote from Miko Mountain Lion Inc., to complete the necessary repairs. The City has an On-Call Agreement with Miko Mountain Lion, Inc. for excavation, backfill and grading maintenance services. Miko Mountain Lion, Inc has successfully worked on other storm drain projects in the City. Total cost of the repairs is estimated at \$200,000, approximately \$50,000 for Margarita Road, and \$150,000 for Santiago Road.

Although the damages are extensive, most of the impacted areas have been addressed, including sediment and debris removal, and to the extent possible, all contract work necessary to make permanent repairs will be accomplished as readily as possible. The requested appropriation provides sufficient funding to cover the estimated costs to complete all repairs based on the initial damage assessments. The City has submitted claims to the County in the event these emergency repairs are eligible for reimbursement under the incident. The need for the continuing emergency resolution will allow for all work to be performed and completed to ensure the safety and welfare of life and property.

FISCAL IMPACT: There is sufficient fund balance in the General Fund to transfer the \$200,000 appropriation into the Public Works Streets Maintenance Drainage Facilities Account-001.164.601.5401.
