

EXHIBIT A
CITY OF TEMECULA
DRAFT CONDITIONS OF APPROVAL

Planning Application No.: PA24-0363

Project Description: Development Plan for the Altair Private Recreation Center and Village C1 Park. The recreation center contains an approximately 1,991 square foot recreation building, approximately 1,437 square foot multi-purpose building, approximately 1,017 square foot pool building, pool, spa, cabanas, fire pit area, and bbq area. The park contains two (2) pickleball courts, half-basketball court, picnic areas, and an open turf area. The project is located within the Altair Specific Plan area.

Assessor's Parcel No.: 940-310-013
940-320-001

MSHCP Category: Credits per the Development Agreement (PA14-0161)

DIF Category: Credits per the Development Agreement (PA14-0161)

TUMF Category: Credits per the Development Agreement (PA14-0161)

Quimby Category: N/A (Non-Residential Development)

New Street In-lieu of Fee: N/A (Project Not Located in Uptown Specific Plan Area)

Approval Date: May 7, 2025

Expiration Date: May 7, 2028

PLANNING DIVISION

Within 48 Hours of the Approval

1. Applicant Filing Notice of Determination.

APPLICANT ACTION REQUIRED:

The applicant/developer is responsible for filing the Notice of Determination as required under Public Resources Code Section 21152 and California Code of Regulations Section 15062 within 48 hours of the project approval. If within said 48-hour period the applicant/ developer has not filed the Notice of Determination as required above, the approval for the project granted shall be void due to failure of this condition. Failure to submit the Notice of Exemption will result in an extended period of time for legal challenges.

FEES:

Fees for the Notice of Exemption include the Fifty Dollar County (\$50.00) administrative fee. The County of Riverside charges additional fees for credit card transactions.

FILING:

The City shall provide the applicant with a Notice of Determination within 24 hours of approval via email. If the applicant/developer has not received the Notice of Determination within 24 hours of approval, they shall contact the case Planner immediately. All CEQA documents must be filed online with the Riverside County Assessor – County Clerk- Recorder. A direct link to the CEQA filings page is available at TemeculaCA.gov/CEQA.

COPY OF FILINGS:

The applicant shall provide the City with a digital copy of the required filings within 48 hours.

General Requirements

2. Indemnification of the City. Indemnity, Duty to Defend and Obligation to Pay Judgments and Defense Costs, Including Attorneys' Fees, Incurred by the City. The Applicant shall defend, indemnify, and hold harmless the City, its elected officials, officers, employees, volunteers, agents, and those City agents serving as independent contractors in the role of City officials (collectively "Indemnitees") from and against any claims, damages, actions, causes of actions, lawsuits, suits, proceedings, losses, judgments, costs, and expenses (including, without limitation, attorneys' fees or court costs) in any manner arising out of or incident to the Planning Commission's actions, this approval and the City Council's actions, related entitlements, or the City's environmental review thereof. The Applicant shall pay and satisfy any judgment, award or decree that may be rendered against City or the other Indemnitees in any such suit, action, or proceeding and the City shall reasonably cooperate in the defense. If the City fails to promptly notify the Applicant of any claim, action, or proceeding, or if the City fails to reasonably cooperate in the defense, the Applicant shall not thereafter be responsible to defend, indemnify, or hold harmless the City or the Indemnitees. The City shall have the right to select counsel of its choice. The Applicant shall reimburse the City, and the other Indemnitees, for any and all legal expenses and costs incurred by each of them in connection therewith or in enforcing the indemnity herein provided. Nothing in this condition shall be construed to require the Applicant to indemnify Indemnitees for any claim arising from the sole negligence or willful misconduct of the Indemnitees. In the event such a legal action is filed challenging the City's determinations herein or the issuance of the approval, the City shall estimate its expenses for the litigation. The Applicant shall deposit said amount with the City or, at the discretion of the City, enter into an agreement with the City to pay such expenses as they become due.

3. Expiration. This approval shall be used within three years of the approval date; otherwise, it shall become null and void. Use means the beginning of substantial construction contemplated by this approval within the three year period, which is thereafter diligently pursued to completion, or the beginning of substantial utilization contemplated by this approval.

A modification made to an approved development plan does not affect the original approval date of a development plan.

4. Time Extension. The Director of Community Development may, upon an application being filed prior to expiration, and for good cause, grant a time extension of up to five (5) extensions of time, one year at a time.

A modification made to an approved development plan does not affect the original approval date of a development plan.

5. Consistency with Specific Plans. This project and all subsequent projects within this site shall be consistent with the Altair Specific Plan (SP No. 15).

6. Block Wall Coating. All perimeter constructed block walls in the public view shall be finished with an anti-graffiti coating and shall provide documentation confirming the installation of the coating.

7. Consistency with Development Agreements. The project and all subsequent projects within this site shall be subject to Development Agreement No. 2018 0036259 recorded on January 30, 2018.

8. Compliance with EIR. The project and all subsequent projects within this site shall comply with all mitigation measures identified within EIR No. SCH# 2014111029.

9. Conformance with Approved Plans. The development of the premises shall substantially conform to the approved site plan and elevations contained on file with the Planning Division.

10. Signage Permits. A separate building permit shall be required for all signage.

11. Landscape Maintenance. Landscaping installed for the project shall be continuously maintained to the reasonable satisfaction of the Director of Community Development. If it is determined that the landscaping is not being maintained, the Director of Community Development shall have the authority to require the property owner to bring the landscaping into conformance with the approved landscape plan. The continued maintenance of all landscaped areas shall be the responsibility of the developer or any successors in interest.

12. Graffiti. All graffiti shall be removed within 24 hours on telecommunication towers, equipment, walls, or other structures.

13. Water Quality and Drainage. Other than stormwater, it is illegal to allow liquids, gels, powders, sediment, fertilizers, landscape debris, and waste from entering the storm drain system or from leaving the property. To ensure compliance with this Condition of Approval:
 - a. Spills and leaks shall be cleaned up immediately.
 - b. Do not wash, maintain, or repair vehicles onsite.
 - c. Do not hose down parking areas, sidewalks, alleys, or gutters.
 - d. Ensure that all materials and products stored outside are protected from rain.
 - e. Ensure all trash bins are covered at all times.

14. Materials and Colors. The Conditions of Approval specified in this resolution, to the extent specific items, materials, equipment, techniques, finishes or similar matters are specified, shall be deemed satisfied by City staff's prior approval of the use or utilization of an item, material, equipment, finish or technique that City staff determines to be the substantial equivalent of that required by the Conditions of Approval. Staff may elect to reject the request to substitute, in which case the real party in interest may appeal, after payment of the regular cost of an appeal, the decision to the Planning Commission for its decision.

Material	Color
Stucco	Creamy (SW 7012)
Stucco	Cobble Brown (SW 6082)
Fascia & Trim	Sable (SW 6083)
Roof	Eagle Concrete (3804 Blend)
Brick	Eldorado TundaBrick (Chalk Dust)

15. Modifications or Revisions. The developer shall obtain City approval for any modifications or revisions to the approval of this project.
16. Phased Construction. If construction is phased, a construction staging area plan or phasing plan for construction equipment and trash shall be approved by the Director of Community Development.
17. Roof Mounted Mechanical Equipment Screening. The applicant shall be required to fully screen roof mounted equipment from public view, including views from any adjacent properties, within the project site and public right of ways. If upon final inspection it is determined that any roof equipment or backs of building parapet walls are visible from any portion of adjacent properties, within the project site or public right of ways, the developer shall provide screening that shall be reviewed and approved by the Director of Community Development.
18. Construction and Demolition Debris. The developer shall contact the City's franchised solid waste hauler for disposal of construction and demolition debris and shall provide the Planning Division verification of arrangements made with the City's franchise solid waste hauler for disposal of construction and demolition debris. Only the City's franchisee may haul demolition and construction debris.
19. Property Maintenance. All parkways, including within the right-of-way, entryway median, landscaping, walls, fencing, recreational facilities, and on-site lighting shall be maintained by the property owner or maintenance association.

Prior to Issuance of Grading Permit

20. Placement of Transformer. Provide the Planning Division with a copy of the underground water plans and electrical plans for verification of proper placement of transformer(s) and double detector check valves prior to final agreement with the utility companies.
21. Placement of Double Detector Check Valves. Double detector check valves shall be installed at locations that minimize their visibility from the public right-of-way, subject to review and approval by the Director of Community Development.

Prior to Issuance of Building Permit

22. Transportation Uniform Mitigation Fee (TUMF). The City of Temecula adopted an ordinance on March 31, 2003 to collect fees for a Riverside County area wide Transportation Uniform Mitigation Fee (TUMF). This project is subject to payment of these fees at the time of building permit issuance per the Development Agreement (PA14-0161). The fees are subject to the provisions of Chapter 15.08 of the Temecula Municipal Code and the fee schedule in effect at the time of building permit issuance. The project may participate and benefit from the TUMF credit program as authorized by the County or Riverside and currently administered by WRCOFF.
23. Development Impact Fee (DIF). The developer shall comply with the provisions of Title 15, Chapter 15.06 of the Temecula Municipal Code and all its resolutions by paying the appropriate City fee per Development Agreement No. 2018 0036259.
24. Photometric Plan. The applicant shall submit a photometric plan, including the parking lot, to the Planning Division, which meets the requirements of the Development Code and the Riverside County Palomar Lighting Ordinance 655. All exterior LED light fixtures shall be 3,000 kelvin or below. The parking lot light standards shall be placed in such a way as to not adversely affect the growth potential of the parking lot trees.
25. Construction Landscaping and Irrigation Plans. Construction Landscaping and Irrigation Plans shall be reviewed and approved by the Planning Division. These plans shall be submitted as a separate submittal, not as part of the building plans or other plan set. These plans shall conform to the approved conceptual landscape plan, or as amended by these conditions. The location, number, height and spread, water usage or KC value, genus, species, and container size of the plants shall be shown. The plans shall be consistent with the Water Efficient Ordinance and Water Storage Contingency Plan per the Rancho California Water District. The plans shall be accompanied by the appropriate filing fee (per the City of Temecula Fee Schedule at time of submittal) and one copy of the approved Grading Plan.
26. Landscaping Site Inspections. The Landscaping and Irrigation Plans shall include a note stating, "Three landscape site inspections are required. The first inspection will be conducted at installation of irrigation while trenches are open. This will verify that irrigation equipment and layout is per plan specifications and details. Any adjustments or discrepancies in actual conditions will be addressed at this time and will require an approval to continue. Where applicable, a mainline pressure check will also be conducted. This will verify that the irrigation mainline is capable of being pressurized to 150 psi for a minimum period of two hours without loss of pressure. The second inspection will verify that all irrigation systems are operating properly, and to verify that all plantings have been installed consistent with the approved construction landscape plans. The third inspection will verify property landscape maintenance for release of the one-year landscape maintenance bond." The applicant/owner shall contact the Planning Division to schedule inspections.
27. Agronomic Soils Report. The Landscaping and Irrigation Plans shall include a note on the plans stating, "The contractor shall provide two copies of an agronomic soils report at the first irrigation inspection."
28. Water Usage Calculations. The Landscaping and Irrigation Plans shall include water usage calculations per Chapter 17.32 of the Development Code (Water Efficient Ordinance), the total cost estimate of plantings and irrigation (in accordance with approved plan). Applicant shall use evapotranspiration (ET_o) factor of 0.70 for calculating the maximum allowable water budget.

29. Landscape Maintenance Program. A landscape maintenance program shall be submitted to the Planning Division for approval. The landscape maintenance program shall detail the proper maintenance of all proposed plant materials to assure proper growth and landscape development for the long-term esthetics of the property. The approved maintenance program shall be provided to the landscape maintenance contractor who shall be responsible to carry out the detailed program.
30. Specifications of Landscape Maintenance Program. Specifications of the landscape maintenance program shall indicate, "Three landscape site inspections are required. The first inspection will be conducted at installation of irrigation while trenches are open. This will verify that irrigation equipment and layout is per plan specifications and details. Any adjustments or discrepancies in actual conditions will be addressed at this time and will require an approval to continue. Where applicable, a mainline pressure check will also be conducted. This will verify that the irrigation mainline is capable of being pressurized to 150 psi for a minimum period of two hours without loss of pressure. The second inspection will verify that all irrigation systems are operating properly, and to verify that all plantings have been installed consistent with the approved construction landscape plans. The third inspection will verify property landscape maintenance for release of the one-year landscape maintenance bond." The applicant/owner shall contact the Planning Division to schedule inspections.
31. Irrigation. The landscaping plans shall include automatic irrigation for all landscaped areas and complete screening of all ground mounted equipment from view of the public from streets and adjacent property for private common areas; front yards and slopes within individual lots; shrub planting to completely screen perimeter walls adjacent to a public right-of-way equal to 66 feet or larger; and, all landscaping excluding City maintained areas and front yard landscaping which shall include, but may not be limited to, private slopes and common areas.
32. Precise Grading Plans. Precise Grading Plans shall be consistent with the approved rough grading plans including all structural setback measurements.
33. Building Construction Plans for Outdoor Areas. Building Construction Plans shall include detailed outdoor areas (including but not limited to trellises, decorative furniture, fountains, hardscape, etc.) to match the style of the building subject to the approval of the Director of Community Development.
34. Landscaping Requirement for Phased Development. If any phase or area of the project site is not scheduled for development within six months of the completion of grading, the landscaping plans shall indicate it will be temporarily landscaped (which may include a requirement for regular irrigation) for dust and soil erosion control.
35. WQMP Landscape Compliance. The construction landscape plans shall be consistent with Appendix A, Table 31 of the Low Impact Development (LID) Manual for Southern California for plant materials and treatment facilities, and shall reference the approved precise grading plan for WQMP features.
36. Utility Screening. All utilities shall be screened from public view. Landscape construction drawings shall show and label all utilities and provide appropriate screening. Provide a three-foot clear zone around fire check detectors as required by the Fire Department before starting the screen. Group utilities together in order to reduce intrusion. Screening of utilities is not to look like an after-thought. Plan planting beds and design around utilities. Locate all light poles on plans and ensure that there are no conflicts with trees.

Prior to Release of Power, Building Occupancy or Any Use Allowed by This Permit

37. Landscape Installation Consistent with Construction Plans. All required landscape planting and irrigation shall have been installed consistent with the approved construction plans and shall be in a condition acceptable to the Director of Community Development. The plants shall be healthy and free of weeds, disease, or pests. The irrigation system shall be properly constructed and in good working order.
38. Performance Securities. Performance securities, in amounts to be determined by the Director of Community Development, to guarantee the maintenance of the plantings in accordance with the approved construction landscape and irrigation plan, shall be filed with the Planning Division for a period of one year from final Certificate of Occupancy. After that year, if the landscaping and irrigation system have been maintained in a condition satisfactory to the Director of Community Development, the bond shall be released upon request by the applicant.
39. Installation of Site Improvements. All site improvements, including but not limited to, parking areas and striping shall be installed.
40. Compliance with Conditions of Approval. All of the foregoing conditions shall be complied with prior to occupancy or any use allowed by this approval.

PUBLIC WORKS DEPARTMENT

General Requirements

41. Conditions of Approval. The developer shall comply with all Conditions of Approval, the Engineering and Construction Manual and all City codes/standards at no cost to any governmental agency.
42. Entitlement Approval. The developer shall comply with the approved site plan, the conceptual Water Quality Management Plan (WQMP) and other relevant documents approved during entitlement. Any significant omission to the representation of site conditions may require the plans to be resubmitted for further review and revision.
43. Precise Grading Permit. A precise grading permit for on site improvements (outside of public right-of-way) shall be obtained from Public Works.
44. Haul Route Permit. A haul route permit may be required when soils are moved on public roadways to or from a grading site. The developer/contractor is to verify if the permit is required. If so, he shall comply with all conditions and requirements per the City's Engineering and Construction Manual and as directed by Public Works.
45. Encroachment Permits. Prior to commencement of any applicable construction, encroachment permit(s) are required and shall be obtained from Public Works for public offsite improvements.
46. Right-of-Way Dedications. All easements and/or right-of-way dedications shall be offered to the public or other appropriate agency and shall continue in force until the City accepts or abandons such offers. All dedications shall be free from all encumbrances as approved by Public Works.
47. Private Drainage Facilities. All onsite drainage and water quality facilities shall be privately maintained.

48. Underlying Approvals. If, in applying these conditions, there is conflict between the requirements of (i) the project's Development Agreement, as amended to date, (ii) the Specific Plan, as amended to date, and/or (iii) Tentative Tract Map No. 36959, the prevailing requirement shall be determined as follows:
- a. First priority goes to the provisions of the Development Agreement
 - b. Second priority goes to the provisions of the Specific Plan, then
 - c. Third priority goes to the provisions of Tentative Tract Map No. 36959-1, 36959-2, 36959-3 and 36959

Prior to Issuance of a Grading Permit

49. Environmental Constraint Sheet (ECS). The developer shall comply with all constraints per the recorded ECS with any underlying maps related to the subject property.
50. Grading/Erosion & Sediment Control Plan. The developer shall submit a grading/erosion & sediment control plan(s) to be reviewed and approved by Public Works. All plans shall be coordinated for consistency with adjacent projects and existing improvements contiguous to the site. The approved plan shall include all construction-phase pollution-prevention controls to adequately address non-permitted runoff. Refer to the City's Engineering & Construction Manual at: www.TemeculaCA.gov/ECM
51. Erosion & Sediment Control Securities. The developer shall comply with the provisions of Chapter 18, Section 18.24.140 of the Temecula Municipal Code by posting security and entering into an agreement to guarantee the erosion & sediment control improvements.
52. NPDES General Permit Compliance. The developer shall obtain project coverage under the State National Pollutant Discharge Elimination System (NPDES) General Permit for Construction Activities and shall provide the following:
- a. A copy of the Waste Discharge Identification Number (WDID) issued by the State Water Resources Control Board (SWRCB);
 - b. The project's Risk Level (RL) determination number; and
 - c. The name, contact information and certification number of the Qualified SWPPP Developer (QSD)
- Pursuant to the State Water Resources Control Board (SWRCB) requirements and City's storm water ordinance, a Storm Water Pollution Prevention Plan (SWPPP) shall be generated and submitted to the Board. Throughout the project duration, the SWPPP shall be routinely updated and readily available (onsite) to the State and City. Review www.cabmphandbooks.com for SWPPP guidelines. Refer to the following link: http://www.waterboards.ca.gov/water_issues/programs/stormwater/construction.shtml
53. Water Quality Management Plan (WQMP) and O&M Agreement. The developer shall submit a final WQMP (prepared by a registered professional engineer) with the initial grading plan submittal, based on the conceptual WQMP from the entitlement process. It must receive acceptance by Public Works. A copy of the final project-specific WQMP must be kept onsite at all times. In addition, a completed WQMP Operation and Maintenance (O&M) Agreement shall be submitted for review and approval. Upon approval from City staff, the applicant shall record the O&M agreement at the County Recorder's Office in Temecula. Refer to the WQMP template and agreement link: www.TemeculaCA.gov/WQMP. As part of the WQMP approval, the Engineer of Record shall report and certify BMP construction per City of Temecula NPDES requirements. Should the project require Alternative Compliance, the developer is responsible for execution of an approved Alternative Compliance Agreement.
54. Area Drainage Plan (ADP) Fee to RCFC&WCD. The developer shall demonstrate to the City that the flood mitigation charge (ADP fee) has been paid to RCFC&WCD. If the full ADP fee has already been credited to this property, no new charge will be required.

55. Drainage. All applicable drainage shall be depicted on the grading plan and properly accommodated with onsite drainage improvements and water quality facilities, which shall be privately maintained. Alterations to existing drainage patterns or concentration and/or diverting flows is not allowed unless the developer constructs adequate drainage improvements and obtains the necessary permissions from the downstream property owners. All drainage leaving the site shall be conveyed into a public storm drain system, if possible. The creation of new cross lot drainage is not permitted.
56. Drainage Study. A drainage study shall be prepared by a registered civil engineer and submitted to Public Works with the initial grading plan check in accordance with City, Riverside County and engineering standards. The study shall identify storm water runoff quantities (to mitigate the 10 and 100-year storm event for 24 hour storm duration peak flow) from the development of this site and upstream of the site. It shall identify all existing or proposed offsite or onsite, public or private, drainage facilities intended to discharge this runoff. Runoff shall be conveyed to an adequate outfall capable of receiving the storm water runoff without damage to public or private property. The study shall include a capacity analysis verifying the adequacy of all facilities. Any upgrading or upsizing of drainage facilities necessary to convey the storm water runoff shall be provided as part of development of this project.
57. Soils Report. A soils report, prepared by a registered soil or civil engineer, shall be submitted to Public Works with the initial grading plan submittal. The report shall address the site's soil conditions and provide recommendations for the construction of engineered structures and preliminary pavement sections.
58. Letter of Permission/Easement. The developer shall obtain documents (letters of permission or easements) for any offsite work performed on adjoining properties. The document's format is as directed by, and shall be submitted to, Public Works for acceptance. The document information shall be noted on the approved grading plan.
59. Gate Entrances. If gates are being proposed at project entrances, the configuration, stacking distance and turn-around ability shall be reviewed and approved by Public Works and the Fire Department.
60. Sight Distance. The developer shall limit landscaping in the corner cut-off area of all street intersections and adjacent to driveways to provide for minimum sight distance and visibility.
61. American Disability Act. The developer shall ensure that all frontage areas to the proposed development within the public right of way are ADA compliant. Any sidewalk within the public right of way found to be non-compliant shall be the responsibility of the property owner to be removed and replaced with ADA compliant sidewalk per the Streets and Highway Code Section 5610.

Prior to Issuance of Encroachment Permit(s)

62. Public Utility Agency Work. The developer shall submit all relevant documentation due to encroaching within City right-of-way; and is responsible for any associated costs and for making arrangements with each applicable public utility agency.
63. Traffic Control Plans. A construction area traffic control plan (TCP) will be required for lane closures and detours or other disruptions to traffic circulation; and shall be reviewed and approved by Public Works. The TCP shall be designed by a registered civil or traffic engineer in conformance with the latest edition of the Caltrans Manual on Uniform Traffic Control Devices (MUTCD) and City standards.

64. Improvement Plans. All improvement plans (including but not limited to street, storm drain, traffic) shall be reviewed and approved by Public Works.
65. Street Trenching. All street trenches shall conform to City Standard No. 407; refer to the City's Paving Notes.

Prior to Issuance of Building Permit(s)

66. Construction of Street Improvements. All street improvement plans shall be approved by Public Works. The developer shall start construction of all public and/or private street improvements, as outlined below, in accordance to the City's General Plan/Circulation Element and corresponding City standards. All street improvement designs shall provide adequate right-of-way and pavement transitions per Caltrans' standards to join existing street improvements.
 - a. Altair Vista (Per approved Tentative Tract Map 36959, -1 and -2 – 56' R/W, from southerly property line to Pu'eska Mountain Parkway) to include installation of full-width street improvements, paving, curb and gutter, sidewalk, streetlights, drainage facilities, signing, striping and utilities (including but not limited to water and sewer).
67. Certifications. Certifications are required from the registered civil engineer-of-record certifying the building pad elevation(s) per the approved plans and from the soil's engineer-of-record certifying compaction of the building pad(s).

Prior to Issuance of a Certificate of Occupancy

68. Completion of Improvements. The developer shall complete all work per the approved plans and Conditions of Approval to the satisfaction of the City Engineer. This includes all on site work (including water quality facilities), public improvements and the executed WQMP Operation and Maintenance agreement.
69. Utility Agency Clearances. The developer shall receive written clearance from applicable utility agencies (i.e., Rancho California and Eastern Municipal Water Districts, etc.) for the completion of their respective facilities and provide to Public Works.
70. Replacement of Damaged Improvements/Monuments. Any appurtenance damaged or broken during development shall be repaired or removed and replaced to the satisfaction of Public Works. Any survey monuments damaged or destroyed shall be reset per City Standards by a qualified professional pursuant to the California Business and Professional Code Section 8771.
71. Certifications. All necessary certifications and clearances from engineers, utility companies and public agencies shall be submitted as required by Public Works.
72. Completion of Street Improvements. Prior to issuance of the first Certificate of Occupancy, Altair Vista improvements from the southerly property line to Pu'eska Mountain Parkway shall be complete.
73. Water Quality Management Plan (WQMP) Verification. As part of the WQMP approval, the Engineer of Record shall report and certify BMP construction per City of Temecula NPDES requirements. Should the project require alternative compliance, the developer is responsible for execution of an approved Alternative Compliance Agreement.

BUILDING AND SAFETY DIVISION

General Requirements

74. Final Building and Safety Conditions. Final Building and Safety conditions will be addressed when building construction plans are submitted to Building and Safety for review. These conditions will be based on occupancy, use, the California Building Code (CBC), and related codes which are enforced at the time of building plan submittal.
75. Compliance with Code. All design components shall comply with applicable provisions of the most current edition of the California Building, Plumbing and Mechanical Codes; California Electrical Code; California Administrative Code, Title 24 Energy Code, California Title 24 Disabled Access Regulations, and Temecula Municipal Code as identified in Title 15 of the Temecula Municipal Code.
76. ADA Access. Applicant shall provide details of all applicable disabled access provisions and building setbacks on plans to include:
- a. Disabled access from the public way to the main entrance of the building.
 - b. Van accessible parking located as close as possible to the main entrance of the building.
 - c. Accessible path of travel from parking to the furthest point of improvement.
 - d. Path of accessibility from parking to furthest point of improvement.
 - e. Accessible path of travel from public right-of-way to all public areas on site, such as trash enclosures, clubhouses, and picnic areas.
77. County of Riverside Mount Palomar Ordinance. Applicant shall submit, at time of plan review, a complete exterior site lighting plan showing compliance with County of Riverside Mount Palomar Ordinance Number 655 for the regulation of light pollution. All streetlights and other outdoor lighting shall be shown on electrical plans submitted to the Building and Safety Division. Any outside lighting shall be hooded and aimed not to shine directly upon adjoining property or public rights-of-way. All exterior LED light fixtures shall be 3,000 kelvin or below.
78. Street Addressing. Applicant must obtain street addressing for all proposed buildings by requesting street addressing and submitting a site plan for commercial or multi-family residential projects or a recorded final map for single-family residential projects.
79. Clearance from TVUSD. A receipt or clearance letter from the Temecula Valley Unified School District shall be submitted to the Building and Safety Department to ensure the payment or exemption from School Mitigation Fees.
80. Obtain Approvals Prior to Construction. Applicant must obtain all building plans and permit approvals prior to commencement of any construction work.
81. Obtaining Separate Approvals and Permits. Trash enclosures, patio covers, light standards, and any block walls will require separate approvals and permits. Solid covers are required over new and existing trash enclosures.
82. Demolition. Demolition permits require separate approvals and permits.
83. Sewer and Water Plan Approvals. On-site sewer and water plans will require separate approvals and permits.
84. Hours of Construction. Signage shall be prominently posted at the entrance to the project, indicating the hours of construction, as allowed by the City of Temecula Code Section 9.20.060, for any site within one-quarter mile of an occupied residence. The permitted hours of construction are Monday through Saturday from 7:00 a.m. to 6:30 p.m. No work is permitted on Sundays and nationally recognized Government Holidays.

85. House Electrical Meter. Provide a house electrical meter to provide power for the operation of exterior lighting, irrigation pedestals and fire alarm systems for each building on the site. Developments with single user buildings shall clearly show on the plans how the operation of exterior lighting and fire alarm systems when a house meter is not specifically proposed.
86. Protection of Drains and Penetration. Protection of joints and penetrations in fire resistance-rated assemblies shall not be concealed from view until inspected for all designed fire protection. Required fire seals/fire barriers in fire assemblies at fire resistant penetrations shall be installed by individuals with classification or certification covering the installation of these systems. Provide certification for the installation of each area and certification of compliance for Building Official's approval.

POLICE DEPARTMENT

General Requirements

87. Landscape Height. The applicant shall ensure all landscaping surrounding all buildings are kept at a height of no more than three feet or below the ground floor window sills. Plants, hedges and shrubbery shall be defensible plants to deter would-be intruders from breaking into the buildings utilizing lower level windows.
88. Tree Pruning. The applicant shall ensure all trees surrounding all building rooftops be kept at a distance to deter roof accessibility by "would-be burglars." Since trees also act as a natural ladder, the branches must be pruned to have a six-foot clearance from the buildings.
89. Exterior Door Lighting. All exterior doors shall have a vandal resistant light fixture installed above the door. The doors shall be illuminated with a minimum one-foot candle illumination at ground level, evenly dispersed.
90. Exterior Building Lighting. All lighting affixed to the exterior of buildings shall be wall mounted light fixtures to provide sufficient lighting during hours of darkness.
91. Commercial or Institutional Grade Hardware. All doors, windows, locking mechanisms, hinges, and other miscellaneous hardware shall be commercial or institution grade.
92. Graffiti Removal. Any graffiti painted or marked upon the buildings must be removed or painted over within 24 hours of being discovered. Report all such crimes to the Temecula Police 24-hour dispatch Center at (951) 696-HELP.
93. Alarm System. Upon completion of construction, the buildings shall have a monitored alarm system installed and monitored 24 hours a day by a designated private alarm company to notify the Temecula Police Department of any intrusion. All multi-tenant offices/suites/businesses located within a specific building shall have their own alarm system. This condition is not applicable if the business is opened 24/7.
94. ADA Parking. All disabled parking stalls on the premises shall be marked in accordance with Section 22511.8 of the California Vehicle Code.

95. Crime Prevention Through Environmental Design. Crime prevention through environmental design as developed by the National Crime Prevention Institute (NCPI) supports the concept that “the proper design and effective use of the built environment can lead to a reduction in the fear and incidence of crime and an improvement in the quality of life.” The nine primary strategies that support this concept are included as conditions below: a. Provide clear border definition of controlled space. Examples of border definition may include fences, shrubbery or signs in exterior areas. Within a building, the arrangement of furniture and color definition can serve as a means of identifying controlled space. b. Provide clearly marked transitional zones. Persons need to be able to identify when they are moving from public to semi-public to private space. c. Gathering or congregating areas to be located or designated in locations where there is good surveillance and access control. d. Place safe activities in unsafe locations. Safe activities attract normal users to a location and subsequently render the location less attractive to abnormal users due to observation and possible intervention. e. Place unsafe activities in safe locations. Placing unsafe activities in areas of natural surveillance or controlled access will help overcome risk and make the users of the areas feel safer. f. Redesign the use of space to provide natural barriers. Separate activities that may conflict with each other (outdoor basketball court and children’s play area, for example) by distance, natural terrain or other functions to avoid such conflict. g. Improve scheduling of space. The timing in the use of space can reduce the risk for normal users and cause abnormal users to be of greater risk of surveillance and intervention. h. Redesign space to increase the perception of natural surveillance. Abnormal users need to be aware of the risk of detection and possible intervention. Windows and clear lines-of-sight serve to provide such a perception of surveillance. i. Overcome distance and isolation. This strategy may be accomplished through improved communications (portable two-way radios, for example) and design efficiencies, such as the location of restrooms in a public building.
96. Business Security Survey. Businesses desiring a business security survey of their location can contact the Crime Prevention and Plans Unit of the Temecula Police Department at (951) 695-2773.
97. Questions Regarding Conditions. Any questions regarding these conditions should be directed to the CORE Team of the Temecula Sheriff’s Station at (951) 699-5130.
