Section 1. Procedural Findings. The Planning Commission of the City of Temecula does hereby find, determine and declare that:

A. On September 30, 2024, Brookfield Properties submitted Planning Application No. PA24-0363, a Development Plan (“the Project”) in a manner in accord with the City of Temecula General Plan and Development Code.

B. The Project was processed including, but not limited to a public notice, in the time and manner prescribed by State and local law.

C. The Planning Commission, at a regular meeting, considered the Project and environmental review on May 7, 2025, at a duly noticed public hearing as prescribed by law, at which time the City staff and interested persons had an opportunity to and did testify either in support or in opposition to this matter.

D. At the conclusion of the Planning Commission hearing and after due consideration of the testimony, the Planning Commission approved Planning Application No. PA24-0363, subject to and based upon the findings set forth hereunder.

E. All legal preconditions to the adoption of the Resolution have occurred.

Section 2. Further Findings. The Planning Commission, in approving the Project hereby finds, determines and declares that in accordance with Temecula Municipal Code Section 17.05.010.F (Development Plan):

A. The proposed use is in conformance with the General Plan for Temecula and with all applicable requirements of State law and other Ordinances of the City.

The proposed private recreation facility and park are permitted in the land use designation standards contained in the Altair Specific Plan and the City's Development Code. The project is also consistent with General Plan land use of Specific Plan Implementation. The site is properly planned and zoned and, as conditioned, is physically suitable for the type of recreational development proposed. The project, as conditioned, is also consistent with other applicable requirements of State law and local ordinances, including the California Environmental Quality Act (CEQA), the City Wide Design Guidelines, and fire and building codes.

B. The overall development of the land is designed for the protection of the public health, safety, and general welfare.

The overall design of the private recreation center and the layout of the private recreation center and park, including the site, building, parking, circulation and other associated site improvements, is consistent with, and intended to protect the health and safety of those working in and around the site. The project has been reviewed for and, as conditioned, has been found to be consistent with all applicable policies, guidelines, standards, and regulations intended to ensure that the development will be constructed and function in a manner consistent with the protection of the public health, safety, and welfare. Nothing proposed in the Development Plan is anticipated to have an adverse impact to the public health, safety and general welfare.

Section 3. Environmental Findings. The Planning Commission hereby makes the following environmental findings and determinations in connection with the approval of the Development Plan:

A. In accordance with the California Environmental Quality Act, it has been determined that no further environmental review of the proposed project is required (Section 15162, Subsequent EIRs and Negative Declarations);

1. The Altair Specific Plan was formally adopted on January 9, 2018. An Environmental Impact Report (EIR) was prepared and certified on December 12, 2017, as part of this effort. The proposed project is consistent with the previously adopted Altair EIR and is exempt from further environmental review (Section 15162, Subsequent EIRs and Negative Declarations). Staff has reviewed the EIR and has determined that the proposed project is consistent with the EIR as the proposed project merely implements the development that was already contemplated and analyzed by the EIR. The EIR analyzed the impacts of the construction of a private recreation center for the community and a park with amenities. As such, the proposed project does not require the preparation of a subsequent Environmental Impact Report or Mitigated Negative Declaration as none of the conditions described in Section 15162 of the CEQA Guidelines (14 Cal. Code Regs. 15162) exist. Additionally, the proposed project does not require the preparation of an addendum to the EIR as there are no changes or additions to the proposed project from what was analyzed by the EIR. Therefore, no further environmental review is required as all environmental impacts of the proposed project were analyzed, disclosed, and mitigated as set forth in the EIR. Moreover, the

mitigation measures imposed as part of the EIR remain valid and applicable to the proposed project.

Section 4. Conditions. The Planning Commission of the City of Temecula approves Planning Application No. PA24-0363, a Development Plan for the Altair Private Recreation Center and Village C1 Park, subject to the Conditions of Approval set forth on Exhibit “A” and Plan Reductions set forth in Exhibit “B”, attached hereto, and incorporated herein by this reference.

PASSED, APPROVED AND ADOPTED by the City of Temecula Planning Commission this 7th day of May, 2025.
