Subject: TTC color scheme (Target center)

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Please do not allow the property owner to keep that ugly dark grey paint. This was not part of the approved color scheme and looks extremely cheap. That center is already a hot mess with all the boarded up buildings and homeless. These buildings should be repainted to match the existing tan and brick colors. I also do not understand how this has gone on as long as it has. Many of the commercial properties in this city are in need of serious maintenance. Same with all the signs/flags/banners up all over the place. It is starting to look more and more like some of the less desirable cities in So. Cal. because of these run down shopping centers/strip malls, most notably Ynez Rd and Jefferson/Wichester area.

Sincerely,

Suzanne Hinds
Temecula, CA
