

EXPANDED RECYCLED WATER CONVERSION PROJECT
Infrastructure / Other Project

Project Description: This project includes the administration, design and construction of six (6) sites within the City for the conversion of water facilities from potable to recycled water. This effort is in cooperation with Rancho California Water District (RCWD) to administer the implementation of improvements in association with the State of California Department of Water Resources Proposition 84 Grant Agreement.

Benefit / Core Value: This project will reduce use of potable water, increase overall water savings and enhance energy efficiencies and potentially reduce greenhouse gas emissions. This project satisfies the City's Core Value of A Sustainable City, a Healthy and Livable City and Accountable and Responsive City Government.

Project Status: Project is estimated to be complete by Fiscal Year 2019-20.
