

**PUBLIC TRAFFIC/SAFETY COMMISSION  
AGENDA REPORT**

**TO:** Public/Traffic Safety Commission

**FROM:** Patrick Thomas, Director of Public Works/City Engineer

**DATE:** January 28, 2021

**SUBJECT:** Update on the RCWD Temecula Parkway Pipeline Replacement Project

---

**PREPARED BY:** Anissa Sharp, Office Specialist II

**RECOMMENDATION:** That the Public/Traffic Safety Commission receive and file the report.

**BACKGROUND:** City of Temecula staff would like to update the Commission on the status of the Temecula Parkway Pipeline Replacement Project. The project, which is being completed by Rancho California Water District, plans to replace nearly 8,000 feet of recycled water pipeline over several phases. Westbound lanes within the phased segments will experience closures and alternative routes will be established. Construction on this project began on December 6<sup>th</sup>, 2020.

The project has moved into Phase 2A, placing construction on Temecula Parkway between La Paz Road and Pechanga Parkway as outlined on Exhibit A. This has temporarily limited Westbound traffic on Temecula Parkway to one lane.

**FISCAL IMPACT:** None.
