

**PUBLIC TRAFFIC/SAFETY COMMISSION
AGENDA REPORT**

TO: Public/Traffic Safety Commission

FROM: Patrick Thomas, Director of Public Works/City Engineer

DATE: April 22, 2021

SUBJECT: Proposed Traffic Calming at the La Paz Road Roundabout

PREPARED BY: Anissa Sharp, Office Specialist II
Erick Escobedo, Assistant Engineer

RECOMMENDATION: That the Public/Traffic Safety Commission direct staff to install the proposed traffic calming measures at the roundabout on Ynez Road and La Paz Road.

BACKGROUND: City of Temecula staff received a citizen request to examine the roundabout located on La Paz Road and Ynez Road for additional traffic calming measures. Exhibit A maps out the traffic calming measures proposed by staff.

Among the proposed changes would be the installation of radar speed signs at both the Northwest and Northeast entrances on Ynez Road. The Northwest entrance would also have the shoulder line adjusted to tighten the lane and entry angle and have additional “Yield” legends installed. On the roundabout itself, installed RS-4 signage (Exhibit B) would be lowered to 48” above finished surface. At the La Paz Road entrance the current striping that delineates left turn from right turn would be eliminated and condensed into one lane by shifting the edge line. R6-4 signage would also be added at the La Paz Road Entrance.

The proposed traffic calming measures would assist in slowing down traffic entering the roundabout with minimal fiscal impact to the City. The public has been notified of the Public/Traffic Safety Commission’s consideration of this issue through the agenda notification process.

FISCAL IMPACT: Minor cost associated with the recommended action.
