

**PUBLIC TRAFFIC/SAFETY COMMISSION
AGENDA REPORT**

TO: Public/Traffic Safety Commission

FROM: Patrick Thomas, Director of Public Works/City Engineer

DATE: April 22, 2021

SUBJECT: Nicole Lane Striping Plan

PREPARED BY: Anissa Sharp, Office Specialist II
Erick Escobedo, Assistant Engineer

RECOMMENDATION: That the Public/Traffic Safety Commission direct staff to install the proposed restriping on Nicole Lane.

BACKGROUND: City of Temecula staff were asked to consider a request to evaluate Nicole Lane for restriping in anticipation of the opening of the Mt. San Jacinto Temecula Valley Campus. Proposed changes (Exhibit A) show the addition of buffered bike lanes as well as adding a striped center median lane. The goal of these changes is to restrict on-street parking that could potentially become an issue with the opening of the MSJC Campus and provide safer pedestrian/biking access to the campus.

The Mt. San Jacinto College purchased the Temecula Valley Campus located at 41888 Motor Car Parkway in 2018. Renovations are scheduled to be complete in 2021. The Temecula Valley Campus will provide students 22 classrooms, 6 science labs, and 5 computer classrooms. The campus also will feature a bookstore, café, art studio, career center, transfer center, and campus safety.

FISCAL IMPACT: Minor cost associated with the recommended action.
