

PC RESOLUTION NO. 2021-

**A RESOLUTION OF THE PLANNING COMMISSION OF
THE CITY OF TEMECULA APPROVING PLANNING
APPLICATION NO. PA21-0586, HOME PRODUCT REVIEW
FOR PLANNING AREA 20A OF THE RORIPAUGH RANCH
SPECIFIC PLAN TO ALLOW FOR FOUR (4) UNIQUE
DETACHED SINGLE-FAMILY PLANS WITH THREE (3)
ARCHITECTURAL STYLES CONSISTING OF 29 LOTS
AND MAKING FINDINGS OF CONSISTENCY WITH THE
EIR AND ADDENDA AND DETERMINING THAT NO
FURTHER ENVIRONMENTAL REVIEW IS REQUIRED
PURSUANT TO SECTION 15162 OF THE CALIFORNIA
ENVIRONMENTAL QUALITY ACT**

Section 1. Procedural Findings. The Planning Commission of the City of Temecula does hereby find, determine and declare that:

A. On April 20, 2021, Taylor Morrison of California filed Planning Application No. PA21-0586 a Home Product Review (Development Plan) in a manner in accord with the City of Temecula General Plan and Development Code.

B. The Application was processed including, but not limited to a public notice, in the time and manner prescribed by State and local law.

C. The Planning Commission, at a regular meeting, considered the Application and environmental review on September 1, 2021, at a duly noticed public hearing as prescribed by law, at which time the City staff and interested persons had an opportunity to and did testify either in support or in opposition to this matter.

D. At the conclusion of the Planning Commission hearing and after due consideration of the testimony, the Planning Commission approved Planning Application No. PA21-0586, subject to and based upon the findings set forth hereunder.

E. All legal preconditions to the adoption of the Resolution have occurred.

Section 2. Further Findings. The Planning Commission, in approving the Home Product Review Application hereby finds, determines and declares that:

Development Plan, Development Code Section 17.05.010.F

A. The proposed use is in conformance with the General Plan for Temecula and with all applicable requirements of State law and other Ordinances of the City;

The proposed single-family homes are permitted in the land use designation standards contained in the Roripaugh Ranch Specific Plan and the City's Development Code. The project is also consistent with the General Plan land use designation of Specific Plan Implementation. The site is properly planned and zoned and, as conditioned, is physically

suitable for the type and density of residential development proposed. The project, as conditioned, is also consistent with other applicable requirements of State law and local ordinances, including the California Environmental Quality Act (CEQA), the Citywide Design Guidelines, and fire and building codes.

B. The overall development of the land is designed for the protection of the public health, safety, and general welfare;

The overall design of the single-family homes, including the site, building, parking, circulation and other associated site improvements, is consistent with, and intended to protect the health and safety of those working in and around the site. The project has been reviewed for and, as conditioned, has been found to be consistent with all applicable policies, guidelines, standards and regulations intended to ensure that the development will be constructed and function in a manner consistent with the protection of the public health, safety, and welfare. The proposed project is consistent with the project that was analyzed by the original Environmental Impact Report or addenda prepared for the project.

Section 3. Environmental Findings. The Planning Commission hereby makes the following environmental findings and determinations in connection with the approval of the Home Product Review:

The Roripaugh Ranch Specific Plan was formally adopted in 2002. An Environmental Impact Report (EIR) was prepared and certified on December 17, 2002 as part of this effort. Since that time, five EIR Addendums have been prepared for the project area with the most recent adopted on January 14, 2020. The proposed project has been determined to be consistent with the previously adopted Roripaugh Ranch EIR Addendum and is exempt from further environmental review (Section 15162, Subsequent EIRs and Negative Declarations). Staff has reviewed the EIR, the First Addendum to the EIR adopted on April 23, 2013, the Second Addendum to the EIR adopted on March 22, 2016, the Third Addendum to the EIR adopted on January 23, 2018, the Fourth Addendum to the EIR adopted on November 6, 2019, the Fifth Addendum to the EIR adopted on January 14, 2020 (collectively, "Addenda"), and has determined that the proposed project is consistent with the EIR and Addenda as the proposed project merely implements the development that was already contemplated and analyzed by the EIR and Addenda. The EIR and Addenda analyzed the impacts of the construction of single-family homes on 29 lots of Planning Area 20A. As such, the proposed project does not require the preparation of a subsequent Environmental Impact Report or Mitigated Negative Declaration as none of the conditions described in Section 15162 of the CEQA Guidelines (14 Cal. Code Regs. 15162) exist. Additionally, the proposed project does not require the preparation of an addendum to the EIR as there are no changes or additions to the proposed project from what was analyzed by the EIR and the Addenda. Therefore, no further environmental review is required as all environmental impacts of the proposed project were analyzed, disclosed, and mitigated as set forth in the EIR and Addenda. Moreover, the mitigation measures imposed as part of the EIR and Addenda remain valid and applicable to the proposed project.

Section 4. Conditions. The Planning Commission of the City of Temecula approves Planning Application No. PA21-0586, Home Product Review for Planning Area 20A of the Roripaugh Ranch Specific Plan to allow for four (4) unique detached single-family plans with three (3) architectural styles consisting of 29 lots, subject to the Conditions of Approval set forth on Exhibit A, attached hereto, and incorporated herein by this reference.

PASSED, APPROVED AND ADOPTED by the City of Temecula Planning Commission this 1st day of September, 2021.

Gary Watts, Chairperson
